2020 SUMMER Anesthesia Conference

Learn from the most respected physician anesthesiologist about anesthesiology and perioperative care

JULY 20-25, 2020
Four Seasons Resort, Ko’Olina, Oahu
Welcome from the chair

Aloha Dear Colleagues!

Leave your shoes at the door and join your colleagues on the beach! On behalf of the California Society of Anesthesiologists (CSA) Education Programs Division, it is my pleasure to invite you to join us at the Four Seasons Ko’olina on the beautiful island of Oahu on July 20 to July 26 for the CSA 2020 Summer Anesthesia Conference. Make sure to bring your swimsuit, sunscreen, and sunglasses for an educational Hawaiian excursion.

CSA’s mission is to spark innovation and professional collaboration through education. We set out to emphasize the most positive aspects of CSA education—reflection on the ever-growing complexity of our patients, emphasis on interdisciplinary learning and delivering collaborative care with a multidisciplinary scientific approach. Our program will not only provide the tools needed to deliver high-quality patient care but will also address how to shape anesthesia care for the future.

Our program has been developed in response to educational priorities expressed by prior CSA meeting attendees. As you can see, we are fortunate to host world class speakers discussing the management of patients with acute and chronic pain, caring for elderly patients, navigating echocardiography, and creating and setting of vision for your practice groups. The program will also host Problem-Based Learning Discussions focusing on case-based and practical take-home points. This will be an opportunity to have audience participation and an exchange of ideas on tackling the ever-growing patient complexity in our perioperative environment that is challenged by financial and time constraints.

The program is balanced between pharmacology, pain management, obstetric anesthesia, pediatric anesthesia, regional anesthesia, neuroanesthesia, and cardiac anesthesia. In addition to the wide variety of clinical topics, there are specialized topics focused on the development of an anesthesiologist as an individual as well as a professional. We will be talking about resiliency, developing leadership skills, and building a successful career.

The conference is the perfect balance of education and leisure time. The sessions are held in the mornings leaving the afternoons free for exploration or lounging on the beach. The meeting will be held at Four Seasons Oahu, one of the best world-renowned resorts on Oahu. The resort provides easy access to excellent beach and ocean activities, world-renowned golf courses, and exciting shopping, dining, and entertainment. Oahu Island is filled with wonders: experience the scenery by helicopter flight, ziplining or take a drive towards the North shore and experience the movie sets and Dole plantation! July weather typically ranges from 75 to 80°F, perfect for exploring the beautiful tropical surroundings. If you are bringing the kiddos, we are conveniently located right next to Disney’s Aulani as well! Please plan to join us for what we believe will be an excellent intellectual and educational experience combined with Hawaiian fun in the sun with lots of entertainment.

I look forward to seeing you all in Ko’Olina Oahu.

Shalini Shah, M.D.
MISSION STATEMENT OF THE CSA EDUCATIONAL PROGRAMS DIVISION
The CSA Educational Programs Division is to provide high quality opportunities, enabling physicians and other allied health care professionals to maintain, develop, and increase knowledge, skills, performance, and relationships necessary for continuing to improve patient safety and medical care. Providing continuing medical education (CME) is one of the major ways in which the CSA is committed to promoting the highest standards of the profession of anesthesiology. “Continuing medical education for the needs of an evolving specialty” is the mission statement that guides the Winter Conference Program Committee.

TARGET AUDIENCE
This program is designed to enhance and maintain the knowledge of practicing physician anesthesiologists, anesthesiologist assistants, nurse anesthetists, physician assistants, anesthesia residents and students, and other health care professionals in the practice of anesthesiology.

TYPES OF ACTIVITIES
Educational activities feature multiple teaching methods, including lectures, case presentations/studies, and question and answer sessions.

STATEMENT OF EDUCATIONAL NEED
Anesthesiology is a dynamic specialty with significant changes expected on a number of fronts in the years to come, including new clinical technologies and practices, regulatory changes, business process changes, and overall changes in the health care environment. In addition to covering the latest clinical information, this program seeks to prepare participants for emerging and anticipated changes in the practice of anesthesiology.

COMMERCIAL SUPPORT ACKNOWLEDGEMENT
This CME activity may be supported by educational grants. A complete list of supporters will be available online in the course syllabus.

RESOLUTION OF CONFLICTS OF INTERESTS
In accordance with the ACCME Standards for Commercial Support, the CSA adheres to strict guidelines and processes to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

ACCREDITATION AND CREDIT DESIGNATION
The California Society of Anesthesiologists is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education to physicians. The California Society of Anesthesiologists designates this live activity for a maximum of 31 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MAINTENANCE OF CERTIFICATION IN ANESTHESIOLOGY
The California Society of Anesthesiologists are pleased to announce that the CSA 2020 Winter Conference has been approved by the American Board of Anesthesiology to fulfill 10 hours of the Patient Safety Requirement for Part II of ABA’s Maintenance of Certification in Anesthesiology Program (MOCA). The Maintenance of Certification in Anesthesiology (MOCA)™ program logo is a trademark of the American Board of Anesthesiology.

Our new CSA 2020 Summer Anesthesia Conference is a comprehensive program designed to enhance the continuing medical education experience of physician anesthesiologists, fellows, residents and other healthcare providers. Topics provide updates on the latest clinical information in anesthesiology and its subspecialties, including, but not limited to pain medicine, regional anesthesia, perioperative care, obstetric anesthesia, pediatric anesthesia and critical care.
